

URBANET 1500 G in operation

URBANET 1500 G

Biodegradable oil PANOLIN
= Drain up to 15 000 H

URBANET 1500 G - Emptying

- **NEW** : Front brush to pick up all types of bulky waste (bottles, stones, plants, dust, etc.).
- 1,50 m sweeping width.
- Emptying height: 2.10 m thanks to the hydraulic lifting arm.
- Designed for narrow streets, alleyways, cycle paths... in your town or city.
- Mixed brush (polyester and polypropylene) Ø 600 mm. Adjustable in height depending on its wear.
- 1000-litre grassbox (useful volume 600 litres) with fill control flap.
- Ø 700 mm side brush in polyester, rilsan polyamide or flat steel for mechanical weeding (optional).
- Gravity or pressure watering option with two 150 L water tanks.
- ORGANIC oil Panolin® (hydraulic unit with) : 15 000 hours lifetime.
- Tractor pump drive with 3-way dual acting valve (for sweeping, lifting and tipping) or optional 540 rpm PTO with 3-way dual acting.
- 2 oversized rear wheels + 1 depth control wheel.
- Hydraulic sweeper up and down to switch between transport to sweeping position.
- Suitable on low-power tractors (20 HP).

Technical characteristics

MODEL	URBANET 1500 G
<i>Brush length</i>	1500 mm
<i>Brush diameter</i>	600 mm
<i>Brush fibre type</i>	Mixed (polypropylene + polyester)
<i>Collecting box capacity</i>	Total volume: 1000 L / Useful volume: 600 L
<i>Emptying height</i>	2,10 m
<i>Dimensions (L x W x H)</i>	3,46 x 1,82 x 1,10 m
<i>Weight (empty)</i>	890 kg (without option) - 1200 kg (all options included)
<i>Ceramic pistons pump</i>	25 to 40 l/min max.
<i>Maximum pressure</i>	200 bar
<i>Coupling</i>	3-point rear (from 20 HP) Adjustable drawbar with drawbar eye

Standard equipment

- Mixed brush diameter 600 mm.
- 6 ½" male hydraulic hoses and valve couplers (sweeping, lifting and tipping).
- 3 adjustable control wheels. Road sign kit (number plate + lighting).
- Collecting box 1000 L - Emptying height up to 2.10 m.

New front brush
