

### THE MANUFACTURER'S ADVICE

DEFINE THE POST DRIVER BEST-SUITED FOR YOUR WORKS AND NEEDS

Your carrier	Your activity	Post driving process	Machine	Use	Advantages	Pages
Tractor	Stock breeder, farm contractor, civil engineer, fencing contractor, Agricultural cooperative, etc...	Hammer with halyard	TILTING MAST	Ideal for flat and hilly grounds.	Flat striking	96
			Rotary and pendular TURBOFRAP 200	Ideal for hilly and uneven grounds (serial : automatic plumbing and aligning system, 200° rotation, 3.00 m long posts maximum).	Flat striking Productivity Post driving quality	98
		Vibration with striking head	VIBRESCOPIC II STOCK BREEDER	Ideal for all types of grounds (even very hard). Maximum productivity and safety. Certified for working with only one user.	Safety Productivity Post driving quality	100
			VIBRESCOPIC PRO STOCK BREEDER			
	Wine maker, arborist	Hammer with halyard	Tilting mast VITI	Ideal for flat grounds and low budget.	Flat striking	103
		Vibration with striking head	VIBRESCOPIC II VITI VIBRESCOPIC III VITI VIBRESCOPIC PRO VITI	Ideal for very hard soil, for productivity and safety. Certified for working with only one user.	Safety Productivity Post driving quality	104
VIBRESCOPIC 150	Ideal for small wooden and iron posts (diameter 80mm max. and for activity limited in time).		Price Simple	110		
Grape harvesting machine Straddle tractor Tool carrier	Wine maker, agricultural cooperative, farm contractor	Vibration with striking head	VIBRESCOPIC II on STILTOR PELLENC BRAUD	The only machine customizable and powerful on all these kinds of carriers.	Safety Productivity Post driving quality	108
Mini-excavator and backhoe loader	Farm contractor, civil engineer, fencing contractor	Vibration with striking head	VIBRESCOPIC II PE	The only machine customizable and powerful on all these kinds of carriers.	Safety Productivity Post driving quality	112
On road trailer	Rental agency, CUMA, landscaper	Vibration with striking head	VIBRESCOPIC 15/35 M	New model mounted on a road trailer and driven by an internal combustion engine.	Safety Productivity Post driving quality	111

**Rabaud  
advantages**

- Adaptation on all types of tractors.
- Own adaptation on your carrier possible.
- Drives all types of posts : iron, wood, etc. Ø 80 mm maximum.
- Its design allows to work between the vineyard rows. Ideal on flat land.
- Percussion up to 1000 strokes/min with only 15 L/min. oil needed.
- Folding mast and hammer allowing a total safety during transport.
- Side Storage and transport of posts (3-point hitch version).
- Easy use : Adjustable mechanical side offset with crank (1.62 m) and orientable telescopic mast 180°.
- Removable hammer for manual use.

### Technical characteristics

MODEL	VIBRESCOPIC 150
<i>Post length</i>	2.10 m max
<i>Post diameter</i>	80 mm max.
<i>Maximum depth</i>	0,90 m
<i>Offset</i>	1,62 m
<i>Hammer percussion</i>	1000 strokes/min. (flow 15 L/min.)
<i>Dimensions (L x W x H)</i>	2,25 x 1,08 x 2,48 m
<i>Weight</i>	On tractor : 214 kg For special adaptation : 35 kg On bracket : 85 kg
<i>Hydraulic needed</i>	Driven with one single-acting and return Flow 15 up to 25 L/min
<i>Pressure</i>	From 80 to 120 bar
<i>Coupling</i>	3-point N°1

### Standard equipment

- Striking power 70 joule/stroke.
- 2 control handles.
- Anti-noise headset.
- Adjustable mast on 180° for VIBRESCOPIC 3-point hitch linkage.
- 2 hydraulic hoses, 8 m long, with 2 ½ male valve couplings (for personal adaptation).
- 2 male couplers ½ - 2 hoses 5 m long + 2 couplers (Bracket).
