

## CONTINENTAL 480 SPECIAL

↑  
**HYDRAULIC 3X**

**INCLUDED**

**OPTIONAL**

**CONTINENTAL 480** is the big sister of the smaller Continental 416 with extra features. The Continental 480 in fact, in addition to what is described in the smaller 416, offers a multifunctional electric joystick, a 48 cm cutting capacity, a 22 ton log splitter and the conveyor belt that can rotate left and right. The splitting wedge supplied is 2/4 but we offer 6, 8 or 12 splits as an option. A truly high-performance and absolutely complete machine for the most demanding operators who want to maximise production.
