

CONTINENTAL 750 C ROAD

The **CONTINENTAL 750** ranks among the largest high-productivity combined harvesters on the market. With a log passage of 70 cm in diameter and a splitting force of 50 tons, it performs in all situations. The Continental 750 is equipped with high-capacity wheels and a drawbar with hydraulic foot so that it can be easily moved around the work site. A 3-chain table for advancing logs is standard. Working light for working even in poor visibility. Roller conveyor with all rollers motorised. Double mobile splitting grid 18 and 28 pieces. Conveyor belt 100 cm wide and 6 metres long with hydraulic inclination. The operator works from a raised position and can control all machine functions. Tractor power requirement 90 hp. The Continental 750 can easily be considered the most productive and efficient in its class.
