

- Post driver mounted on road trailer 130 km/h.
- Trailer weighs less than 750 kg. Conventional driving licence is required for moving.
- Driven by heat engine HONDA 22 HP.
- Post driver mounted on a 360° tool post, for side working.
- Telescopic arm enabling to drive posts up to 2,80 m and an lateral offset of 0,70 m.
- Percussion hammer mounted on a mast with anti-wear ertalon guides. The hammer is lowered by means of a cylinder to guide the post as it is driven into the ground, while exerting a supporting force by striking.
- Sturdy, forged, milled and processed striking head, Ø 150 mm. Slightly concave striking head to recenter the pile without damaging it during driving.
- The hydraulic movement (rotation, offset, tilt and up/down of the striking head) are executed by radio-control.
- Automatic adjustment of tilting mast.
- Fully foldable machine for transport.

Pile shaping - Post driver -
Auger - Unwinding machine
