

SF RANGE

Mulcher - SF range

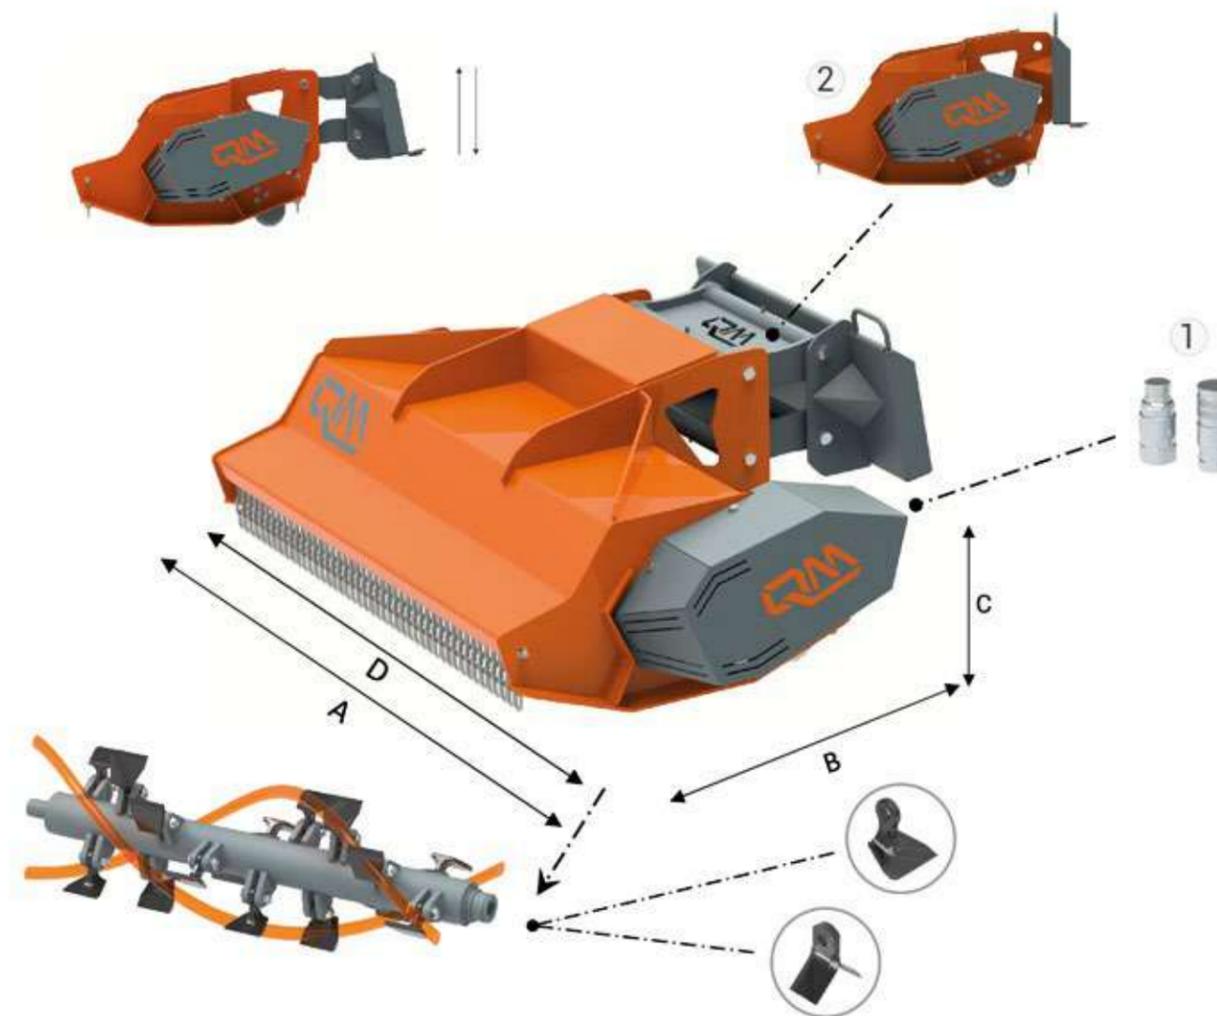

SF Mulcher can be applied to Skid Loaders and Wheel Loaders with universal front attachment SAE J2513. The resistant and robust body, thanks also to the wear-resistant interchangeable slides, make it suitable for professional work. It is equipped with the "shockproof", "anti-cavitation" and "pressure control and limitation" valve group. It can be equipped with hammers or Y-shaped blades with intermediate.

STANDARD TECHNICAL FEATURES

- Compact and robust design that improves visibility from the cockpit
- Direct transmission
- Spiral shape of the tools for better cutting capacity
- Flow regulating valve block - anti-shock - anti-cavitation - max pressure
- Possibility to equip the rotor with hammers or Y-knives
- Shaft with knives or mallets with fixed supports for better shredding of the material
- Engine crankcase protection
- Support roller with through shaft for greater thrust resistance
- Hydraulic pipes L=1300
- Front and rear protections with CE-compliant chain barrier
- Self-levelling system to adapt to the terrain
- Reinforcements on support slides
- High quality painting for greater resistance to impacts and wear
